FIELD SERVED

INDUSTRIAL EQUIPMENT NEWS serves the industrial field including manufacturing, mining, utilities, construction, transportation, governmental establishments, and educational services. Also served are library and company copies.

DEFINITION OF RECIPIENT QUALIFICATION

Qualified recipients are administration, production/plant operations/maintenance, engineering and purchasing titled personnel, as well as libraries and company copies. Also qualified are individuals with functional responsibilities of top management design and/or research development; product system design & development management and engineering; evaluation, quality control, standards, reliability, test engineering; research and development; top management plant operations and maintenance; plant operations management and engineering; maintenance management and engineering; other plant operations and maintenance; top management production/manufacturing; manufacturing management and engineering; production management and engineering; and others.

DEFINITION OF A UNIT

A unit is a company, business or establishment primarily engaged in manufacturing, processing or performing services for one type of economic activity at a single physical location. Included are:

Units within the metalworking/manufacturing industries including NAICS 331–339 (SIC's 25, 33–39)

Units within the processing industries including NAICS 311–316 and 321–327 (SIC's 20–24 and 26–32)

Other Industry Related Units as explained in paragraph 3a.
